Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 19-21 and 23-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Wolfe et al. (USPN 4541055).

Wolfe teaches a processing method and device comprising a component processing device, a laser, a reference position or point and a connecting element (36) connectable to the component (figures 3I-3K, col 2 lines 20-60). The reference point can be changed or adjusted relative to other parts of the apparatus (col 16 lines 54-68 and col 18 lines 38-60). The beam is directable at an angle (col 19 lines 10-33) and variably focused and projected (col 28 line 60 – col 29 line 5).

Response to Arguments

3. Regarding applicant's argument that Wolfe does not teach a single laser beam, see figures 3I-3L, column 10 line 67 to column 11 line 32 and column 15 line 9 to column 16 line 36 which show and teach a single laser beam 178 which is moved through a sequence of steps to perform a series of lasing operations. Column 11 lines 23-26 particularly teach that a split beam is an alternative to the single controlled beam. Column 16 lines 54-68 teach alignment of the single beam.

Therefore the 102 rejection of claims 19-21 and 23-27 as anticipated by Wolfe stands.

Allowable Subject Matter

4. Claim 22 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 1-18 and 28-30 are allowed.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Muchnik (US 2004/0216319 A1), Hayata et al. (US 2003/0030821 A1, 2 beams) and Drygalla et al. (DE 19817434, hand operable laser).
7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1725

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
